

North Dakota Quality Enhancement Project

NOW RECRUITING CENTERS WITH INFANT/TODDLER CLASSROOMS IN EASTERN NORTH DAKOTA FOR 2008!

★ Free Resources

Materials and equipment purchased specifically for your participating infant/toddler classroom.

★ Training

- ★ Staff will participate in trainings designed specifically for interacting with infants and toddlers and creating a quality infant/toddler classroom.
- ★ Directors will participate in trainings focused on effective business practices and leadership skills to support infant/toddler quality care.

★ Health Consultation

Support and on-site visits given from CCR&R's health consultant, including policy information and health/safety resources.

★ Consultation Visits

Comprehensive on-site assistance with topics such as environment planning, teacher/child interactions and program structure from CCR&R's Center Consultant.

★ Classroom Observation

Pre and Post observations of your infant/toddler environment using the *Infant/Toddler Environmental Rating Scale-revised edition*. Observation results will guide us to the focused areas of improvement.

★ Recognition

Opportunity to be recognized on CCR&R's referral database as classrooms who have successfully achieved a good to excellent score.
