

## Child Care Start-Up Grant Application Process

1. Submit completed application and supporting documentation. This does not include receipts (these are not needed unless approved).
  - Must have had first visit with your licensor.
  - Can apply up to 6 months after your license effective date.
  - If not yet licensed, also need to submit a copy of the Fire Marshal report (if required to have a visit) and documentation that the items being requested are needed to become licensed.
  - If licensed, a copy of your child care license is needed.
2. Application is sent to Grant Review Committee.
  - Identifying information is removed.
  - The committee determines the following:
    - If all items being requested are approved,
    - If any of the items being requested should be approved at 50% due to being items, that are shared with a household or organization.
    - The total amount to approve.
3. Application Decision
  - Grant amount will be determined based on responses from Grant Review Committee members.
  - Letter will be sent to application letting them know if grant has been approved, placed on the waitlist, or denied.
    - If approved, will state if there are any items that were not approved, any items that were approved at 50% funding and the total amount of the grant awarded. Will also have list of required items that need to be submitted for reimbursement.
    - If placed on a waitlist, this means that the Grant Review Committee approved the application but there is no funding available so the application should be able to be awarded at a later date.
    - If denied, will state the specific reason why.
4. Information and verifications submitted for reimbursement.
  - Will need to submit a completed invoice form and W9 (sent with award letter) as well as receipts for items requested on application and approved.
  - Payments are issued on the 5<sup>th</sup> and 20<sup>th</sup> of each month (unless those dates fall on a weekend or holiday). Required information should be submitted at least 5 business days before either of those dates to be paid. For example, if items are submitted on August 28<sup>th</sup>, payment will be issued on September 5<sup>th</sup>. If items are submitted on September 2<sup>nd</sup>, payment will not be issued until September 20<sup>th</sup>.

### Things to Note

- The items being requested must be things required to become licensed.
- All grants are issued on a reimbursement basis. Reimbursement only occurs once a program has received their child care license. A copy of the license is required before reimbursement will be issued.
- Items being requested on the application can be items that have already been purchased. Reimbursement can occur for any approved items as long as they were purchased within 6 months of the child care license effective date.
- Reimbursement can only be issued for new items and must be purchased from a retail store, not a private party (this includes Etsy).

# Child Care Services Start-Up Grant Application Guide

Child Care Services Start-Up Grants assist child care providers and programs who are soon-to-be licensed or have been licensed for less than six months with purchasing items or making improvements that are required by licensing or the Fire Marshall.

## FREQUENTLY ASKED QUESTIONS

### 1. Who can apply for Start-Up Grants?

Any program that is actively providing early learning services to children ranging in age from birth to school-age and was licensed for the first time within the past six months OR

- Is soon-to-be licensed with the Minnesota Department of Human Services (DHS) or Tribal Government and has been visited by a licensor OR
- Is a new program (less than six months in operation) that is licensed or is licensed-exempt OR
- Is an existing program that is expanding to take more children, as indicated on the license as an increase in licensed capacity

If licensed by DHS, a program must have no current negative actions. Licensing violation such as a temporary immediate suspension, revocation, or a maltreatment determination where the facility was found responsible will prevent the issuance of a grant and/or will cause withdrawal of a grant.

You may receive only one Start-Up Grant. A program cannot receive both a Start-Up Grant and a Regional Grant in the same fiscal year (July 1 – June 30).

### 2. How much money can my program apply for?

The limit for Start-Up Grants is \$2,000 for Family Child Care programs and \$3,000 for Child Care Centers.

### 3. What items can my program apply for?

Programs may apply for funds to support the start-up of child care and school-age care services through the categories listed in this guide. Please see pages 4-8 of this document for examples of eligible items.

Any items purchased with this grant must be used in accordance with licensing requirements. Please contact your licensor if you have questions about this.

These grants can be used to cover the cost of materials for outdoor play area fencing or other minor construction projects as required by licensing to ensure child safety or meet other program standards. All materials must be new and must be purchased from a retail store, not a private party. In the event that a child care program wishes to have the cost of assembly and/or installation covered by a grant, the labor must be performed by a contractor following applicable state and local laws and regulations regarding registration and licensure. See <https://www.dli.mn.gov/business/residential-contractors-remodelers-roofers> for more information.

These grants can be used for technology and software to create, enhance, and maintain business management systems. This includes costs associated with accessing the internet, such as installation or equipment, and website costs for start-up, maintenance, or ongoing subscription fees.

Eligible items that are for 100% business use will be funded at 100%. Items that are shared with a household or organization (such as a church) will be funded at 50%.

#### 4. What items are not eligible?

Due to a federal rule, Start-Up Grants may not be used for the following:

**Major Construction or Renovations:** Major renovation means structural changes to the foundation, roof, floor, exterior or load-bearing walls of a facility, or the extension of a facility to increase its floor area; or extensive alteration of a facility such as to significantly change its function and purpose, even if such renovation does not include any structural change. Funds may be expended for minor remodeling of the designated child care space and for upgrading the designated child care space to assure that providers meet state and local child care standards, including applicable health and safety requirements.

**Religious-based Curricula, Activities, Materials, or Counseling:** Child care programs are allowed to purchase and/or use religious-based curricula or items in their program if they choose, but they must use their own funds; they cannot use Child Care Services Grants.

**Expendable Supplies:** Expendable supplies (diapers, wipes, soap, paper products), except as it pertains to Personal Protective Equipment (cleaning products, hand sanitizer, masks) used for recommendations from the Minnesota Department of Health to keep children and staff safe during the COVID-19 Pandemic.

**Office supplies that are not directly used for early childhood quality improvement activities:** Ink and paper used to print invoices for families would not be an allowed use of grants. Ink and paper used to print curriculum, worksheets, or a newsletter for families in the program would be allowed.

One-time field trips for children

Child care tuition (scholarships)

## Teaching and Relationships with Children

Children do better when early care and education teachers and providers are caring and engaging, have quality learning environments, use a research-based curriculum, and support children’s transitions to kindergarten. Teachers and providers make a big difference in children’s lives. These practices help build relationships and give children what they need to learn and grow.

### Assessment and Planning for Each Individual Child

**Children do better when their teachers and providers know them well, understand their levels of development, and use the information to plan instruction. Assessment information is accurate and fair when it is gathered in a way that includes observation in natural settings, and a child assessment tool that is valid and reliable.**

Purchase of an assessment tool for use in your program. See list of approved assessment tools on the Parent Aware website: [ParentAware.org/programs/full-rating-resources/](https://parentaware.org/programs/full-rating-resources/)

- Camera or video camera for recording classroom activities (Does not include special lenses, etc.)
- Journaling materials
- Laptop, tablet, or desktop computer for on-line assessment

### Professionalism

**Children do better when their teachers and providers have professional preparation that includes higher education coursework, combined with on-going training and support. These qualifications have been found to be consistent predictors of program quality, strong child-adult interactions, quality learning environments, and positive child outcomes.**

#### Learning Opportunities

- Face-to-face training approved on Develop
- Online learning approved on Develop
- Professional early childhood organization conferences approved on Develop
- CDA training approved on Develop
- Fee-for-service mentoring, coaching, and/or consultation
- Higher education costs of supporting a T.E.A.C.H. recipient

#### Professional Resources

- Early childhood education and child development textbooks, subscriptions to education and professional journals
- Child care association fees
- Early childhood education professional texts
- Laptop or tablet for taking online courses

### Relationships with Families

**Children do better when families are engaged in their children’s education and development. Building two-way relationships with families helps strengthen a sense of belonging among all children in the program as they experience respect and support for their home cultures and languages.**

- Face-to-face training approved on Develop about communicating with families
- Technology related to communicating with families (text programs, etc.)

- Bulletin boards
- Newsletters

## APPLYING FOR A START-UP GRANT

**Training Requirement:** Participate in 12 hours of training, approved by Achieve, which can be found on Develop ([www.developtoolmn.org](http://www.developtoolmn.org)). All required training must be completed before receiving reimbursement. The cost of participating in this required training is your responsibility. However, you may choose to include the cost of the required training as part of the grant application by applying for dollars within the Professional Development category.

**Participation Agreement:** Your program will need to sign a Participation Agreement that details all requirements. The agreement lays out the responsibilities of programs receiving grants. Please read the agreement carefully before signing.

**Two-Year Requirement:** If you are awarded a grant, your program will be required to provide active licensed or license-exempt child care services in Minnesota for a minimum of two years from the date of your award letter. If for any reason your program ceases to provide active child care services within the required timeframe, you will be required to repay grant dollars on a prorated basis.

**Reimbursement Timeline:** All documents required for requesting reimbursement must be submitted by the date indicated on your award letter for Grant Administrator review. Grant Administrators have the right to:

- Ask for clarification (or pictures) of any grant item before approving AND
- Refuse reimbursement for any purchase that doesn't match the original request or intended purpose

**Expenditures:** Be specific on your expenditure pages. Only items that were approved on your application will be reimbursed. If any substitution needs to occur, this **must** be approved by your local Grant Administrator, prior to making the purchase. A budget change can only occur once in a grant cycle.

**Grant Payment Information:** All Start-Up Grants are paid on a reimbursement basis after all requirements are completed.

**Grant Application Review Process:** Once you submit an application, it will be reviewed by a review committee. Each application is reviewed by three review committee members who recommend the items and the amount to be considered for final approval. A denial or award letter will be sent to you via email or U.S mail.

**Before Applying:** below is a list of steps to complete prior to completing your application.

- Create a Develop Membership ID (Directions can be found at [www.developtoolmn.org](http://www.developtoolmn.org)).
- Link your Develop Membership ID with your program's Organization ID and list yourself as an employee.
- Please contact your local Grant Administer with questions or concerns.
